- AI Support Chat
- Resources & Self-Care

⚠️ Not a substitute for professional care. If you're in crisis, see the Resources page or call a helpline immediately.

Resources & Self-Care

If you are in immediate danger or having thoughts of suicide or self-harm, please contact emergency services or a crisis helpline right now.

You don't have to go through this alone. Please reach out right now:

- IN KIRAN Helpline (India): 1800-599-0019 (24/7, toll-free, multilingual)
- IN Tele-MANAS (India): 14416 or 1-800-891-4416 (24/7)
- 🌐 Befrienders Worldwide: [befrienders.org](https://www.befrienders.org) — find a crisis line in your country
- If you are in immediate danger, please contact local emergency services or go to the nearest emergency room.

Talking to a mental health professional, a doctor, or someone you trust can make a real difference. Would you like to tell me a bit more about how you're feeling?

Grounding & Coping Techniques

- Box breathing:** inhale 4s → hold 4s → exhale 4s → hold 4s, repeat for a few minutes
- 5-4-3-2-1 grounding:** name 5 things you see, 4 you hear, 3 you can touch, 2 you smell, 1 you taste
- Brief movement:** a short walk or stretch can shift a stuck mental state
- Reach out:** a quick message to a friend or family member can ease isolation
- Write it down:** journaling (like the Check-in page) can help externalize racing thoughts

When to Seek Professional Support

Consider speaking with a doctor, counselor, or therapist if low mood, anxiety, or stress are persistent, are affecting your daily life, or simply if you want support — you don't need to be in crisis to benefit from professional care.

This app is a self-reflection and support tool, not a diagnostic or clinical service. Sentiment scores reflect language patterns only, not a medical assessment.

AI Mental Health Sentiment Analyzer

Understand your mood patterns and get supportive guidance

This app helps you reflect on your wellbeing through journaling, sentiment tracking, and a supportive AI chat companion.
